Stellantis annonce des résultats pour l'année 2024 conformes aux prévisions financières actualisées ; Retour à une croissance rentable et à un Free cash-flow industriel positif en 2025

- Chiffre d'affaires net de 156,9 milliards d'euros, en baisse de 17 % par rapport à 2023, avec des volumes d'expédition consolidés en baisse de 12 %, en raison de l'absence momentanée de certains modèles dans l'offre produit, et des actions de réduction des stocks désormais achevées.
- Bénéfice net de 5,5 milliards d'euros, en baisse de 70 %. Le résultat opérationnel courant ⁽¹⁾ s'établit à 8,6 milliards d'euros en recul de 64 % avec une marge à ⁽²⁾ 5,5 %.
- Free cash-flow industriel ⁽³⁾ à -6 milliards d'euros, reflétant la baisse des revenus et l'augmentation temporaire du fonds de roulement due aux ajustements de production.
- Les stocks totaux au 31 décembre 2024 étaient inférieurs de 18 % ou 268 milliers d'unités par rapport à l'année précédente, incluant une baisse de 20 % du stock des concessionnaires américains à 304 milliers d'unités, dépassant ainsi l'objectif de 330 milliers d'unités communiqué précédemment.
- Premiers lancements en 2024 des produits de nouvelle génération sur les plateformes STLA Medium et STLA Large, et en Europe sur la plateforme mondiale Smart Car avec les Citroën C3 / ë-C3.
- Le total des liquidités industrielles disponibles s'élevait à 49,5 milliards d'euros à la fin de l'année 2024, et la position financière nette de l'industrie à 15,1 milliards d'euros. Stellantis prévoit de verser un dividende de 0,68 € par action ordinaire, soit un rendement de 5 %, sous réserve de l'approbation des actionnaires.
- Pour 2025, Stellantis prévoit une croissance positive du chiffre d'affaires avec une marge opérationnelle courante à « un chiffre », et la génération de free cash-flow industriels positifs.
- Le processus de nomination du nouveau CEO est en cours et devrait être finalisé au premier semestre 2025. En attendant, l'entreprise reste concentrée sur l'exécution de sa stratégie.

« Bien que 2024 ait été une année très contrastée pour l'entreprise, avec des résultats en deçà de notre potentiel, nous avons franchi d'importantes étapes stratégiques. Nous avons notamment initié le déploiement de nos nouvelles plateformes multi énergies, lancé de nouveaux produits, démarré la production de batteries pour véhicules électriques par le biais de nos coentreprises, et mis en œuvre le partenariat avec Leapmotor International. Cette offensive de nouveaux modèles se poursuit en 2025. Les équipes impliquées et talentueuses de Stellantis poursuivent leurs efforts avec énergie et détermination, en s'engageant auprès des principales parties prenantes, et en favorisant la prise de décision au plus proche des besoins de nos clients. Nous restons déterminés à gagner des parts de marché et à améliorer nos performances financières tout au long de l'année 2025. »

John Elkann, Chairman

Ram 1500 Ramcharger

AMSTERDAM, 26 février 2025 - Stellantis N.V. a annoncé ses résultats pour l'année 2024, qui sont conformes aux prévisions financières actualisées publiées en septembre 2024.

Dans les 90 jours qui ont suivi sa mise en place, et tandis que le processus de sélection du prochain CEO se poursuit pour une nomination prévue au premier semestre 2025, l'équipe de direction intérimaire a pris des mesures rapides et décisives pour améliorer la performance et la rentabilité de l'entreprise.

Notamment :

- **La réduction des stocks** des concessionnaires américains au-delà des objectifs définis ;
- **La priorisation des lancements stratégiques** afin de mieux répondre aux besoins évolutifs des clients, en particulier aux États-Unis ;
- **Une utilisation appropriée des flexibilités de la réglementation CO₂** pour atténuer les risques, tout en poursuivant la réduction des émissions ;
- **Une collaboration accrue avec les concessionnaires** aux États-Unis et en Europe pour accélérer le retour à la croissance ;
- **Une communication intensifiée avec les fournisseurs**, afin de faciliter la collaboration et la résolution des problèmes ;
- **Un dialogue plus soutenu avec les gouvernements et les régulateurs** sur les questions clés de l'industrie ;
- **Une délégation renforcée en faveur des régions** pour une prise de décision plus rapide et une exécution rigoureuse.

Au terme d'une année 2024 riche en défis, Stellantis a initié la transition vers sa prochaine génération de produits, avec les premiers modèles construits sur les nouvelles plateformes multi-énergies STLA, et qui offrent aux consommateurs davantage de liberté de choix (moteurs thermiques, hybrides et électriques). Les points forts sont les suivants :

- **STLA Medium** : Les premiers modèles lancés sur cette nouvelle plateforme multi-énergie native BEV sont les Peugeot E-3008 et E-5008 ainsi que le nouveau Opel Grandland. Ils offrent aux clients le choix entre les versions électriques, hybrides et hybrides rechargeables. La nouvelle DS N° 8, présentée en décembre, propose une autonomie électrique de référence allant jusqu'à 750 km (466 miles) en cycle combiné WLTP ;
- **STLA Large** : Cette plateforme multi-énergie hautement évolutive équipe de nouveaux modèles tels que le Dodge Charger Daytona, les Jeep® Wagoneer S, le remplaçant de la Jeep® Cherokee et la Jeep® Recon, ainsi que les futurs véhicules Alfa Romeo, Chrysler et Maserati. Les premiers véhicules Dodge et Jeep sont désormais disponibles chez les concessionnaires. Cette plateforme propose également les motorisations hybrides et thermiques sans compromettre les performances clés du véhicule ;
- **STLA Frame** : Conçue pour les pick up et les SUV de grande taille, à carrosserie sur châssis, cette plateforme débutera en 2025 avec le Ram 1500 Ramcharger, suivi par des véhicules de la marque Jeep, et intègrera une technologie hybride révolutionnaire à prolongateur d'autonomie ;
- **Smart Car** : Stellantis a lancé des modèles européens sur la plateforme mondiale multi-énergie Smart Car, notamment la Citroën C3 / ë-C3 abordable et la nouvelle C3 Aircross, l'Opel Frontera et la Fiat Grande Panda. Citroën Basalt a également été lancée en Inde et en Amérique du Sud.

Stellantis lancera 10 nouveaux produits en 2025.

L'intelligence artificielle est au cœur de la transformation digitale de Stellantis, générant des avancées dans de nombreux domaines grâce à des partenariats avec les leaders du secteur. En s'appuyant sur l'IA, Stellantis réaffirme son engagement à développer des solutions innovantes, basées sur les données, pour améliorer ses produits, ainsi que pour l'expérience de ses clients et de ses collaborateurs. En début d'année 2025, Stellantis s'est associé à Mistral AI pour explorer le développement d'un assistant embarqué avancé, illustrant ainsi les nombreuses initiatives qui intègrent l'IA dans nos véhicules et nos processus.

Stellantis a également dévoilé STLA AutoDrive 1.0, son premier système de conduite automatisée développé en interne offrant des fonctionnalités de conduite autonome jusqu'au niveau 3 (SAE Level 3). STLA AutoDrive, ainsi que STLA Brain et STLA SmartCockpit, feront progresser l'intelligence des véhicules, l'automatisation et l'expérience de l'utilisateur.

Stellantis prévoit de verser un dividende de 0,68 € par action ordinaire, sous réserve de l'approbation des actionnaires. Le calendrier prévu est le suivant : (i) Ex-date : 22 avril 2025 pour Euronext Milan et Euronext Paris et 23 avril 2025 pour NYSE ; (ii) Record date : 23 avril 2025 pour NYSE, Euronext Milan et Euronext Paris ; (iii) Payment date : 5 mai 2025 pour NYSE, Euronext Milan et Euronext Paris.

ÉVÉNEMENTS À VENIR : Assemblée générale des actionnaires- 15 avril 2025 ; Ventes et chiffre d'affaires du premier trimestre - 30 avril 2025

Le 26 février 2025, à 14h00 CET / 8h00 EST, un webcast et une conférence téléphonique en direct seront organisés pour présenter les résultats 2024 de Stellantis. La présentation sera publiée le même jour vers 8h00 CET / 2h00 EST. Le webcast et le replay seront disponibles dans la section Finance du site Internet de Stellantis (www.stellantis.com).

Stellantis Delivers Full Year 2024 Results Consistent with Updated Financial Guidance; Expects Return to Profitable Growth and Positive Cash Generation in 2025

- Net revenues of €156.9 billion, down 17% compared to 2023, with consolidated shipment volumes decreasing 12% due to temporary gaps in product offerings, as well as now-complete inventory reduction initiatives
- Net profit of €5.5 billion, down 70%. Adjusted operating income⁽¹⁾ of €8.6 billion fell 64% with AOI margin⁽²⁾ of 5.5%
- Industrial free cash flows⁽³⁾ were negative €6 billion reflecting the decline in income and temporary enlarged working capital impact due to production adjustments
- Total inventories on December 31, 2024 were 18% or 268 thousand units lower year-over-year, including a 20% drop in U.S. dealer stock to 304 thousand units, surpassing previously communicated target of 330 thousand units
- Generational product portfolio transition initiated in 2024 with the first products launched on STLA Medium and STLA Large platforms, and scaled globalization of Smart Car platform through the European launch of Citroën C3/ë-C3
- Total industrial available liquidity ended 2024 at €49.5 billion, with Industrial net financial position at €15.1 billion. Dividend to common shareholders proposed at €0.68 per share, representing a 5% yield, pending shareholder approval
- 2025 financial guidance of "Positive" Net Revenue Growth, "Mid-Single Digits" AOI margin and "Positive" industrial free cash flows, reflecting both the early stage of the commercial recovery as well as elevated industry uncertainties
- The process to appoint the new permanent Chief Executive Officer is well underway and will be concluded within the first half of 2025. In the meantime, the Company is focused on execution

"While 2024 was a year of stark contrasts for the Company, with results falling short of our potential, we achieved important strategic milestones. Notably, we began the rollout of new multi-energy platforms and products, which continues in 2025, started production of EV batteries through our JVs, and launched the Leapmotor International partnership. Stellantis' dedicated and talented people are driving forward with energy and determination, engaging with key stakeholders and moving decision-making closer to our customers. We are firmly focused on gaining market share and improving financial performance as 2025 progresses."

John Elkann, Chairman

AMSTERDAM, February 26, 2025 - Stellantis N.V. has announced its full-year 2024 results, which are consistent with the updated financial guidance released in September 2024.

In the 90 days since the leadership transition began, and while the process to select the next CEO within the first half of 2025 continues, the interim leadership team has taken quick, decisive actions to improve the company's performance and profitability.

These actions include:

- **Completing inventory management initiatives**, including surpassing U.S. dealer stock reduction objectives;
- **Prioritizing critical launches** to better meet evolving customer needs, especially in the U.S.;
- **Making better use of available flexibilities** under CO2 regulations to mitigate risks, while continuing to reduce emissions;
- **Working together with our dealer bodies** in the U.S. and Europe to accelerate the return to growth;
- **Strengthening communication with suppliers** to facilitate collaboration and problem-solving;
- **Elevating engagement with governments and regulators** on key industry issues; and,
- **Empowering our regions** to increase speed of decision-making and rigor of execution.

Looking back on a challenging 2024, Stellantis began transitioning to its next generation of products, including the first built on the new STLA multi-energy platforms, which offer consumers more freedom to choose (internal combustion, hybrid and electric powertrains). Highlights include:

- **STLA Medium:** The first models to hit the roads on the new multi-energy BEV-centric platform are Peugeot E-3008 and E-5008 and new Opel Grandland. They offer customers the choice of electric, hybrid and plug-in hybrid variants. The new flagship DS N° 8 presented in December, offers a best-in class BEV range of up to 750 km (466 miles) in the WLTP combined cycle;
- **STLA Large:** This highly adaptable multi-energy platform supports new models like the Dodge Charger Daytona, Jeep® Wagoneer S, Jeep® Cherokee replacement and Jeep® Recon, along with future Alfa Romeo, Chrysler and Maserati vehicles. The first Dodge and Jeep vehicles are now arriving at dealerships. The platform also supports hybrid and internal combustion propulsion systems without compromising key vehicle capabilities;
- **STLA Frame:** Designed for full-size, body-on-frame trucks and SUVs, this platform will debut in 2025 with the Ram 1500 Ramcharger followed by Jeep brand vehicles, featuring game-changing range-extending hybrid technology; and
- **Smart Car:** Stellantis launched European products on the global multi-energy Smart Car platform, including the affordable Citroën C3/ë-C3 and new C3 Aircross, Opel Frontera and Fiat Grande Panda. Citroën Basalt was also launched in India and South America.

Stellantis will launch 10 new products in 2025.

Artificial Intelligence is central to Stellantis' digital transformation, powering advancements across multiple domains with top-tier partners in the field. By leveraging AI, Stellantis reinforces its commitment to developing innovative, data-driven solutions that enhance its products, as well as the experiences of both customers and employees. As an illustration, in early 2025, Stellantis partnered with Mistral AI to explore the development of an advanced in-car assistant, one of many initiatives integrating AI into our vehicles and processes.

Stellantis also unveiled STLA AutoDrive 1.0, the Company's first in-house-developed automated driving system, delivering Hands-Free and Eyes-Off (SAE Level 3) functionality. STLA AutoDrive, alongside STLA Brain and STLA SmartCockpit, will advance vehicle intelligence, automation and the user experience.

Stellantis plans to pay a dividend of €0.68 per common share, pending shareholder approval. The expected calendar is: (i) Ex-date: April 22, 2025 for Euronext Milan and Euronext Paris and April 23, 2025 for NYSE; (ii) Record date: April 23, 2025 for NYSE, Euronext Milan and Euronext Paris; (iii) Payment date: May 5, 2025 for NYSE, Euronext Milan and Euronext Paris.

UPCOMING EVENTS: Annual General Meeting - April 15, 2025; Q1 Shipments & Revenues - April 30, 2025

On February 26, 2025, at 2:00 p.m. CET / 8:00 a.m. EST, a live webcast and conference call will be held to present Stellantis' Full Year 2024 Results, with the presentation expected to be posted at approximately 8:00 a.m. CET / 2:00 a.m. EST. The webcast and recorded replay will be accessible under the Investors section of the Stellantis corporate website (www.stellantis.com).

FULL YEAR 2024 SEGMENT PERFORMANCE

NORTH AMERICA

€ million, except as otherwise stated	2024	2023	Change
Shipments (000s)	1,432	1,903	(471)
Net revenues	63,450	86,500	(23,050)
AOI	2,660	13,298	(10,638)
AOI margin	4.2%	15.4%	(1,120) bps

- **Shipments** down 25%, mainly due to reduced production in support of the U.S. inventory reduction actions, as well as from discontinued models of Dodge Charger and Challenger, Chrysler 300, and Jeep® Cherokee and Renegade
- **Net revenues** down 27%, primarily due to lower volumes from discontinued models of Dodge Charger and Challenger, Chrysler 300, and Jeep® Cherokee and Renegade
- **Adjusted operating income** down 80%, due to significant impacts from volume/mix, increased sales incentives and higher warranty costs

MIDDLE EAST & AFRICA

€ million, except as otherwise stated	2024	2023	Change
Combined shipments ⁽⁴⁾ (000s)	534	616	(82)
Consolidated shipments ⁽⁴⁾ (000s)	423	443	(20)
Net revenues	10,097	10,560	(463)
AOI	1,901	2,503	(602)
AOI margin	18.8%	23.7%	(490) bps

- **Consolidated shipments** down 5%, mainly due to changeover in medium-sized K9 van in Turkey, as well as significant impact from importation restrictions in Algeria, Tunisia and Egypt
- **Net revenues** down 4%, primarily due to negative FX translation effects, mainly from Turkish Lira, partially offset by strong increases in net pricing
- **Adjusted operating income** down 24%, mainly due to negative FX transaction and translation effects primarily related to the Turkish Lira, mainly offset by increased pricing actions

CHINA AND INDIA & ASIA PACIFIC

€ million, except as otherwise stated	2024	2023	Change
Combined shipments ⁽⁴⁾ (000s)	61	154	(93)
Consolidated shipments ⁽⁴⁾ (000s)	61	102	(41)
Net revenues	1,993	3,528	(1,535)
AOI	(58)	502	(560)
AOI margin	(2.9)%	14.2%	(1,710) bps

- Lower results due to decline in shipments, negative mix impacts, consolidation impact from Leapmotor investment and continued pricing pressures, partly offset by SG&A cost savings

ENLARGED EUROPE

€ million, except as otherwise stated	2024	2023	Change
Shipments (000s)	2,576	2,814	(238)
Net revenues	59,010	66,598	(7,588)
AOI	2,419	6,519	(4,100)
AOI margin	4.1%	9.8%	(570) bps

- **Shipments** down 8%, driven by reduction in dealer stock from H1 '24, as well as production losses due to delayed launch of vehicles utilizing the Smart Car platform
- **Net revenues** down 11%, due to decreased volumes, higher portion of sales with buyback commitments, increased sales incentives and negative mix
- **Adjusted operating income** down 63%, due to negative product content and trim impact, increased sales incentives and lower volumes, partly offset by savings in raw material and other purchasing activities

SOUTH AMERICA

€ million, except as otherwise stated	2024	2023	Change
Shipments (000s)	912	879	+33
Net revenues	15,863	16,058	(195)
AOI	2,272	2,369	(97)
AOI margin	14.3%	14.8%	(50) bps

- **Shipments** up 4%, driven primarily by increased volumes in Brazil and the continued success of Fiat with the Argo, Strada and Fastback
- **Net revenues** down 1%, due to FX impacts from Brazilian Real and Argentine Peso, partially offset by increased volume and positive impacts of parts & service business and net pricing
- **Adjusted operating income** down 4%, primarily due to increased vehicle net pricing and volume, more than offset by FX translation impacts and negative mix

MASERATI

€ million, except as otherwise stated	2024	2023	Change
Shipments (000s)	11.3	26.6	(15.3)
Net revenues	1,040	2,335	(1,295)
AOI	(260)	141	(401)
AOI margin	(25.0)%	6.0%	(3,100) bps

- Lower results due to decreased volumes and mix impacts, as well as lower industrial fixed costs absorption, offset by cost efficiencies in SG&A and R&D

H2 2024 SEGMENT PERFORMANCE

NOTES

(1) Adjusted operating income/(loss) excludes from Net profit/(loss) from continuing operations adjustments comprising restructuring and other termination costs, impairments, asset write-offs, disposals of investments and unusual operating income/(expense) that are considered rare or discrete events and are infrequent in nature, as inclusion of such items is not considered to be indicative of the Company's ongoing operating performance, and also excludes Net financial expenses/(income) and Tax expense/(benefit).

Unusual operating income/(expense) are impacts from strategic decisions, as well as events considered rare or discrete and infrequent in nature, as inclusion of such items is not considered to be indicative of the Company's ongoing operating performance. Unusual operating income/(expense) includes, but may not be limited to: impacts from strategic decisions to rationalize Stellantis' core operations; facility-related costs stemming from Stellantis' plans to match production capacity and cost structure to market demand, and convergence and integration costs directly related to significant acquisitions or mergers.

(2) Adjusted operating income/(loss) margin is calculated as Adjusted operating income/(loss) divided by Net revenues.

(3) Industrial free cash flows is our key cash flow metric and is calculated as Cash flows from operating activities less: (i) cash flows from operating activities from discontinued operations; (ii) cash flows from operating activities related to financial services, net of eliminations; (iii) investments in property, plant and equipment and intangible assets for industrial activities; (iv) contributions of equity to joint ventures and minor acquisitions of consolidated subsidiaries and equity method and other investments; and adjusted for: (i) net intercompany payments between continuing operations and discontinued operations; (ii) proceeds from disposal of assets and (iii) contributions to defined benefit pension plans, net of tax. The timing of Industrial free cash flows may be affected by the timing of monetization of receivables, factoring and the payment of accounts payables, as well as changes in other components of working capital, which can vary from period to period due to, among other things, cash management initiatives and other factors, some of which may be outside of the Company's control. In addition, Industrial free cash flows is one of the metrics used in the determination of the annual performance bonus for eligible employees, including members of the Senior Management.

(4) Combined shipments include shipments by Company's consolidated subsidiaries and unconsolidated joint ventures, whereas Consolidated shipments only include shipments by Company's consolidated subsidiaries. This includes the vehicles produced by our joint ventures and associates (including Leapmotor) which are distributed by our consolidated subsidiaries. In addition to the volumes included in consolidated shipments, combined shipments also includes the vehicles distributed by our joint ventures (such as Tofas). Figures by segments may not add up due to rounding. China shipments from DPCA are no longer included in Combined shipments as of November 2023; prior periods have not been restated.

(5) Adjusted diluted earnings per share ("EPS") is calculated by adjusting Diluted earnings per share for the post-tax impact per share of the same items excluded from Adjusted operating income as well as tax expense/(benefit) items that are considered rare or infrequent, or whose nature would distort the presentation of the ongoing tax charge of the Company. We believe this non-GAAP measure is useful because it also excludes items that we do not believe are indicative of the Company's ongoing operating performance and provides investors with a more meaningful comparison of the Company's ongoing quality of earnings. Adjusted diluted EPS should not be considered as a substitute for Basic earnings per share, Diluted earnings per share from operations or other methods of analyzing our quality of earnings as reported under IFRS.

(6) Industrial net financial position is calculated as Debt plus derivative financial liabilities related to industrial activities less (i) cash and cash equivalents, (ii) financial securities that are considered liquid, (iii) current financial receivables from the Company or its jointly controlled financial services entities and (iv) derivative financial assets and collateral deposits. Therefore, debt, cash and cash equivalents and other financial assets/liabilities pertaining to Stellantis' financial services entities are excluded from the computation of the Industrial net financial position. Industrial net financial position includes the Industrial net financial position classified as held for sale.

Rankings, market share and other industry information are derived from third-party industry sources (e.g. Agence Nationale des Titres Sécurisés (ANTS), Associação Nacional dos Fabricantes de Veículos Automotores (ANFAVEA), Ministry of Infrastructure and Sustainable Mobility (MIMS), S&P Global, Ward's Automotive) and internal information unless otherwise stated.

For purposes of this document, and unless otherwise stated industry and market share information are for passenger cars (PC) plus light commercial vehicles (LCV), except as noted below:

- Enlarged Europe excludes Russia and Belarus; prior periods figures have been restated;
- Middle East & Africa exclude Iran, Sudan and Syria;
- South America excludes Cuba;
- India & Asia Pacific reflects aggregate for major markets where Stellantis competes (Japan (PC), India (PC), South Korea (PC + Pickups), Australia, New Zealand and South East Asia);
- China represents PC only and includes licensed sales from DPCA; and
- Maserati reflects aggregate for 17 major markets where Maserati competes and is derived from S&P Global data, Maserati competitive segment and internal information.

Prior period figures have been updated to reflect current information provided by third-party industry sources.

EU30 = EU 27 (excluding Malta), Iceland, Norway, Switzerland and UK.

Low emission vehicles (LEV) = battery electric (BEV), plug-in hybrid (PHEV), range-extender electric vehicle (REEV) and fuel cell electric (FCEV) vehicles.

All Stellantis reported BEV and LEV sales include Citroën Ami, Opel Rocks-e and Fiat Topolino; in countries where these vehicles are classified as quadricycles, they are excluded from Stellantis reported combined sales, industry sales and market share figures.

About Stellantis

Stellantis N.V. (NYSE: STLA/ Euronext Milan: STLAM/ Euronext Paris: STLAP) is one of the world's leading automakers aiming to provide clean, safe and affordable freedom of mobility to all. It's best known for its unique portfolio of iconic and innovative brands including Abarth, Alfa Romeo, Chrysler, Citroën, Dodge, DS Automobiles, FIAT, Jeep®, Lancia, Maserati, Opel, Peugeot, Ram, Vauxhall, Free2move and Leasys. Stellantis is executing its Dare Forward 2030, a bold strategic plan that paves the way to achieve the ambitious target of becoming a carbon net zero mobility tech company by 2038, with single-digit percentage compensation of the remaining emissions, while creating added value for all stakeholders. For more information, visit www.stellantis.com. Contacts: communications@stellantis.com or investor.relations@stellantis.com.

SAFE HARBOR STATEMENT

This document, in particular references to “FY 2025 Guidance”, contains forward looking statements. Statements regarding future financial performance and the Company’s expectations as to the achievement of certain targeted metrics, including revenues, industrial free cash flows, vehicle shipments, capital investments, research and development costs and other expenses at any future date or for any future period are forward-looking statements. These statements may include terms such as “may”, “will”, “expect”, “could”, “should”, “intend”, “estimate”, “anticipate”, “believe”, “remain”, “on track”, “design”, “target”, “objective”, “goal”, “forecast”, “projection”, “outlook”, “prospects”, “plan”, or similar terms. Forward-looking statements are not guarantees of future performance. Rather, they are based on the Company’s current state of knowledge, future expectations and projections about future events and are by their nature, subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future and, as such, undue reliance should not be placed on them.

Actual results may differ materially from those expressed in forward-looking statements as a result of a variety of factors, including: the Company’s ability to launch new products successfully and to maintain vehicle shipment volumes; the Company’s ability to attract and retain experienced management and employees; changes in trade policy, the imposition of global and regional tariffs or tariffs targeted to the automotive industry; changes in the global financial markets, general economic environment and changes in demand for automotive products, which is subject to cyclical; the Company’s ability to successfully manage the industry-wide transition from internal combustion engines to full electrification and accurately predict the market demand for electrified vehicles; the Company’s ability to offer innovative, attractive products and to develop, manufacture and sell vehicles with advanced features including enhanced electrification, connectivity and autonomous-driving characteristics; the Company’s ability to produce or procure electric batteries with competitive performance, cost and at required volumes; the Company’s ability to successfully launch new businesses and integrate acquisitions; a significant malfunction, disruption or security breach compromising information technology systems or the electronic control systems contained in the Company’s vehicles; exchange rate fluctuations, interest rate changes, credit risk and other market risks; increases in costs, disruptions of supply or shortages of raw materials, parts, components and systems used in the Company’s vehicles; changes in local economic and political conditions; the enactment of tax reforms or other changes in tax laws and regulations; the level of governmental economic incentives available to support the adoption of battery electric vehicles; the impact of increasingly stringent regulations regarding fuel efficiency and greenhouse gas and tailpipe emissions; various types of claims, lawsuits, governmental investigations and other contingencies, including product liability and warranty claims and environmental claims, investigations and lawsuits; material operating expenditures in relation to compliance with environmental, health and safety regulations; the level of competition in the automotive industry, which may increase due to consolidation and new entrants; exposure to shortfalls in the funding of the Company’s defined benefit pension plans; the Company’s ability to provide or arrange for access to adequate financing for dealers and retail customers and associated risks related to the operations of financial services companies; the Company’s ability to access funding to execute its business plan; the Company’s ability to realize anticipated benefits from joint venture arrangements; disruptions arising from political, social and economic instability; risks associated with the Company’s relationships with employees, dealers and suppliers; the Company’s ability to maintain effective internal controls over financial reporting; developments in labor and industrial relations and developments in applicable labor laws; earthquakes or other disasters; and other risks and uncertainties.

Any forward-looking statements contained in this document speak only as of the date of this document and the Company disclaims any obligation to update or revise publicly forward-looking statements. Further information concerning the Company and its businesses, including factors that could materially affect the Company’s financial results, is included in the Company’s reports and filings with the U.S. Securities and Exchange Commission and AFM.
